 James Bound: 828-273-0128**

Greencraft is committed to serving the Asheville Community as a sustainable builder. We are locally owned and operated and excited to be part of the thriving local green building community. James Bound is President and General Contractor for Greencraft. He currently serves as the 2nd Vice President of the Asheville Home Builders Association and is an active member of the Western North Carolina Green Building Council. James holds an Environmental Studies Degree from the University of Oregon. His passion for building, and the environment, continually motivates him to raise the level of workmanship and the sustainability of the building craft.
